OBJECTIVE

Enthusiastic Electronics and Communication Engineering student with strong foundations in Data Science, AI/ML, Embedded Systems, and Networking. Seeking entry-level roles where I can apply technical and analytical skills to solve real-world problems while contributing to organizational growth.

EDUCATION

B.Tech in ECE, Vignan's Institute of Information Technology 2022 – 2026
GPA: 9.01/10

Intermediate, Sri Chaitanya College 2020 – 2022
GPA: 8.75/10

Class X, Sasi E/M High School 2019 – 2020
GPA: 9.5/10

SKILLS

Programming	C, Python, HTML, CSS
Data Science	Data Cleaning, Data Preprocessing, Pandas, NumPy, Scikit-learn, Matplotlib
Tools	MS Excel, Git, Jupyter Notebook
Embedded Systems	Embedded C, Arduino, VHDL
Networking	OSI Model, TCP/IP, Subnetting, Routing, Wireless Networks, Network Security
Soft Skills	Communication, Sales, Time Management, Leadership

WORK EXPERIENCE

Sales Trainee Intern 01 Sep 2025 – 01 Oct 2025
Silver Star Mercedes Benz (Raam Group) *Hyderabad*

- Assisted the sales team in customer engagement, lead follow-ups, and showroom operations.
- Explained premium vehicle features, pricing structures, and financing options to prospective clients.
- Supported digital marketing and lead conversion strategies, contributing to improved customer acquisition.
- Developed strong persuasion, negotiation, and client relationship management skills.

Data Science with AI/ML Intern June – July 2025
Cranes Varsity

- Performed data cleaning, preprocessing, and exploratory data analysis on real-world datasets.
- Built and evaluated ML models including classification algorithms with improved accuracy up to 92–95%.
- Applied feature engineering and model optimization techniques.
- Tools: Python, Pandas, Scikit-learn, Matplotlib.

Embedded Systems Intern May – April 2024
Tecky Bot

- Worked on microcontroller programming and real-time embedded applications.
- Designed hardware interfacing solutions using Arduino and Embedded C.
- Gained hands-on experience in Microcontroller and hardware logic implementation.

- Promoted various programs through digital marketing and campus outreach.
- Successfully enrolled students by clearly communicating value propositions.
- Strengthened skills in sales pitching, marketing strategy, and communication.

PROJECTS

Skin Cancer Detection using ML (Quantum-Inspired Technology)

- Developed a machine learning-based classification model to detect melanoma from dermoscopic images.
- Applied quantum-inspired feature optimization techniques to enhance model performance.
- Achieved high classification accuracy through preprocessing, feature extraction, and hyperparameter tuning.
- Tools: Python, Scikit-learn, Image Processing, AI/ML.

Customer Churn Predictor using AI/ML

- Built a predictive model to identify customers likely to churn using supervised learning algorithms.
- Improved prediction accuracy from 80% to 92–95% using data cleaning and feature engineering.
- Tools: Python, Pandas, Matplotlib, Scikit-learn.

Solar Water Trash Collector (IoT)

- Designed an IoT-based automated floating waste collection system.
- Implemented microcontroller-based control using Embedded C and Arduino.

Automatic School Bell System using Arduino Uno

- Automated school bell operations using time-controlled programming logic.
- Reduced manual intervention and improved operational efficiency.

CERTIFICATIONS

- Cisco Netacad: CCNA Fundamentals, Introduction to Cybersecurity, Introduction to Operating Systems
- NPTEL: Programming and Data Structures in Python
- Udemy: Total CCNA Fundamentals
- EdX: Introduction to IoT and Cloud Computing

EXTRA-CURRICULAR ACTIVITIES

- Participated in Code Rush and Circuitrix (Vista Tech Fest).
- Stage Committee Member for Freshers and Farewell Events.
- Active involvement in sports and community activities.

LANGUAGES

- Telugu (Native Proficiency)
- English (Professional Working Proficiency)
- Hindi (Conversational Proficiency)
